

Leadership Institute: Presenters' Academy

Leadership Institute Presenters' Academy: Teams of experienced administrators build district leadership capacity through the facilitation of the NTC Leadership Institute in their local environment.

Background

The Leadership Institute professional development series has a ten-year proven track record with new, experienced and aspiring administrators across the United States.

Leadership Institute modules are designed to provide school agencies with the ability to directly deliver high-quality professional development to their own administrators via a licensing agreement with the New Teacher Center. A short description of each of the ten modules can be found on the reverse page.

Overview

The Leadership Institute Presenters' Academy is a two-day workshop that prepares local district professional development teams to present and use the NTC Leadership Institute modules in their own districts. Teams should include those administrators responsible for district professional development and leadership development, as well as site administrators with strong group facilitation skills.

The workshop is offered via open enrollment in conjunction with ACSA in California or directly to the client district. Attendance is a required element of the licensing agreement for local use of these materials. Please contact us directly for details about the contract before registering.

Content

The Presenters' Academy includes an overview of NTC design principles and facilitation skills necessary to provide powerful professional development for school leaders. Participants will prepare a presentation on an assigned module from the series and will receive feedback from the group and senior NTC staff.

- Professional Development Design Principles
- Adult Learning Theory
- Facilitation Skills
- Presentation Strategies
- Handling Debrief and Closure
- Understanding the LI Materials: Structure & Content

Outcomes

Participants will:

- Understand the theory of action behind the module content and design
- Receive materials and processes based on best practices in professional development for school leaders
- Be provided with a variety of tools to assist them in the implementation of a local Leadership Institute
- Practice the delivery of the Leadership Institute material through an interactive process
- Be approved to deliver essential professional development in their local district

Participants' Comments

"The materials are flawless! It will be very easy to facilitate this work..."

"It's obvious that high-performing teams have created these well-designed materials and structures. Thanks for modeling and then highlighting facilitator strategies."
